

UCAAS IP OFFICE

Simplify communications and collaboration to achieve greater productivity

UCaaS IP Office™, powered by Avaya, features cloud-based tools that enable users to create value and deliver meaningful results by delighting customers and engaging colleagues.

Unified Communications

Flexibility

Mobility

Scalability

UCaaS IP Office

Outdated, on-premises communications systems cannot provide the flexibility your business needs to grow. Upgrade to UCaaS IP Office, powered by Avaya, for affordable, powerful and scalable business communications that enable you to stay ahead of your competition.

Unified communications

Single platform for voice, video, messaging and conferencing keeps employees productive, streamlines support and reduces monthly costs.

Complete mobility

Intuitive tools help employees stay connected, engaged and productive whether in the office or working remotely.

Out-of-the-box integrations

Embed communications in other applications: Salesforce, Google, Microsoft Office 365 and Skype for Business.

Provide a better CX

Integrated voice, web chat, email, fax and reporting capabilities enable contact centers of any size to deliver a positive customer experience.

Reliable and secure

A hardened architecture has helped more than 635,000 businesses reduce security threats, toll fraud and down time.

Scalability

UCaaS IP Office easily grows to meet demand, supporting up to 3,000 users working in as many as 150 networked sites.

How does UCaaS IP Office benefit your business?

Operational vs. capital expense

Eliminate large upfront costs

Pay month-by-month

Forecast accurately with predictable pricing

Investment protection

Leverage Loyalty2Gether promotion for a limited time to upgrade legacy handsets for less

Upgrade your entire environment to IP devices cost-effectively

Gain a resilient and reliable system in a completely operational expense model

Flexibility

Scale up or down, based on seasonality or organizational changes

Realize savings from unused licenses

Streamlined management

Avoid potential performance issues with proactive bandwidth and port utilization monitoring

View all users on either a single site or across 150 locations via an intuitive interface

Security

Protect your business with built-in, always-on security

Keep your system current with the latest security patches
